

## PRESSRELEASE

Stockholm 8 April 2016

## FASTATOR'S ANNUAL REPORT FOR 2015 IS NOW PUBLISHED

As of today, Fastator's Annual Report for 2015 is available on the company's website, [www.fastator.se](http://www.fastator.se). In retrospect, we can report that 2015 was an eventful year for Fastator and a strong year in terms of earnings.

During 2015, we made great efforts to transform Fastator into a dedicated investment company with a niche in the property sector. We took the step of becoming listed, increased the number of holdings and introduced valuable skills to the company by way of a new Board of Directors and a new CEO. We are also pleased to have delivered strong earnings for the year; the company's net asset value rose MSEK 79 adjusted for share issuances during the year, and the return on equity grew from 13,8 percent to 21,1 percent.

With its core business in place, Fastator is now entering a period of distinct growth.

"2015 was about laying stable foundations for the new operational orientation. Going forward, the focus will principally be on carrying out new investments where we see that Fastator's capital and know-how could be the key to unlocking growth potential. We currently have several investment opportunities that could generate large returns in relation to risk," says Daniel Hummel, CEO of Fastator.

In connection with the Annual General Meeting on 10 May, the Annual Report will be sent by post to shareholders who have registered their addresses with their trustee. Others wanting to obtain a printed copy of the Annual Report are welcome to contact Fastator using the details below.
